CHLORINE DIOXIDE

Clean. Simple. Pure.

RD THREADED COUPLER FOR CDG SOLUTION 3000™

CDG Solution 3000™ is the first stable, ready-to-use liquid chlorine dioxide product designed to effectively control microorganisms over a wide spectrum of applications. Compared to traditional anti-microbials, CDG Solution 3000™ offers ease of application, safety in handling, and superior effectiveness. **CDG Solution 3000™ is a patented, EPA approved hard-surface disinfectant.**

What is Chlorine Dioxide?

Chlorine Dioxide (ClO_2) exists as a gas and has been referred to as "the ideal biocide." ClO_2 is a fast-acting antimicrobial effective across a wide pH range which has 2.6 times more oxidizing power than bleach and is considered safer than other alternatives. ClO_2 rapidly disrupts biofilm. So far problematic microorganisms have shown an inability to develop resistance to ClO_2.

Description and Use of RD Threaded Coupler:

- Connects inserts in drums, totes, and pails to tubing leading to a pump or other dispensing device.
- Inserts are supplied pre-installed in drums and totes where specified, and will soon be available in 5-gallon pails.
- Tubing connects to the coupler using a standard 3/8" MNPT x compression fitting supplied by the user.

FEATURES AND BENEFITS (compared to previous barbed fitting design):

- Provides a more secure connection to tubing
- No tubing clamp required
- Greater selection of standard tubing sizes available for compatibility with coupler and pump
- Compatible with concentrated Solution 3000
- Constructed with PVDF plastic components and silicone elastomers for chemical resistance and durability
